OPERATIONS APPROVED FOR DXCC CREDIT

The following operations are approved for DXCC credit:

Timor-Leste, 4W/HB9FLX, 4W/N1YC, 4W/PE7T
Bhutan, A52JR. I

If you have had cards for these operations rejected in a recent application, please send an email to the ARRL DXCC Desk at dxccadmin@arrl.org and you will be placed on the list for an update.

KP1, NAVASSA ISLAND (Press Release)

The KP1-5 Project is pleased to announce that the U.S. Fish and Wildlife Service has agreed to allow an amateur radio operation from Navassa National Wildlife Refuge (KP1). The operation will occur within the next 18 months and will be coordinated with the USFWS work flow.

Over the past year, the KP1-5 Project has had numerous meetings with various levels of USFWS management. Throughout our discussions, their personnel have been courteous, professional and cooperative. We have been treated with sincere interest and respect and believe that amateur radio operators may now be viewed as partners and not adversaries.

As with the Desecheo operation in 2009, and in order to be transparent and fair, the USFWS has requested proposals for the amateur radio operation from those individuals and groups that have already applied for a Special Use Permit in the past. The KP1-5 Project will be submitting a proposal and hoping to be selected as they were for the very successful Desecheo (K5D) operation.

We wish to thank the USFWS for their decision to allow this operation. Navassa Island is ranked #2 most-needed DXCC entity by The DX Magazine and #1 by ClubLog.

Please visit our website for up to date information. <http://kp1-5.com/>

FT4TA, Tromelin 2014 PRESS RELEASE -

We have just passed the 100 days mark before the beginning of our FT4TA operation to the island of Tromelin. Since the last official press release many things have evolved well; we are extremely fortunate. Thanks to the strong mobilization around our project, we are relatively trustful in the fact of being able to gather the necessary budget. If we do not meet last minute problems, and if individual donations continue to flow at the current rate, we should balance our budget (after the expedition).

Some partners have not yet validated their assistance, and we definitively count on them!

In addition, several people in Japan have mentioned to us they encountered problems with the Paypal button on our website. In order to circumvent this problem, we invite people who would be in this instance to use our address (tromelin2014@orange.fr) directly from their Paypal account.

Almost all of the equipment was gathered by the team. This equipment was lent, purchased or taken from our personal stations. We want to express our thanks to Spiderbeam (masts), Elecraft (radios), OM Power (amplifiers), Microham (interfaces), Messi and Paolini (coaxial cables), DX Engineering (phasing 80m) and DX World.net, which sponsors us the Internet access by satellite to let you use our on-line logbook and read daily news from the team during the operation.

At the end of June, three pallets of equipment had been shipped to Reunion island. They have been transported last Sunday to Tromelin (by helicopter) by the logistics service of TAAF.

This possibility was offered to us suddenly and was not in our initial plan. Although it induces very important expenditure, we could not let pass this opportunity because it will deeply modify the physiology of our operation. It would not have been possible for us to carry all this equipment on a small aircraft. This freighting marks the true point of no return!

Our preliminary works with TAAF continue. Michel FM5CD and Seb F5UFX went at the end of May to Reunion to meet our interlocutors (TAAF, civil aviation, airline company). We want to highlight again the trusted relationship and the incommensurable assistance brought by TAAF.

2014 marks the 60th birthday of the first amateur radio activity from Tromelin. Prepared in collaboration with the philatelic service of TAAF, and drawn by an artist, a special stamp

NBR. 610

will be put on sale at the time of the Autumn Philatelic Exhibition in Paris (November 6th to 9th). During this event, an amateur radio station will be set-up on the TAAF booth by the radio-club of Provins, F6KOP. They will proceed to demonstrate and make contacts with FT4TA team twice a day. It's very important to promote our activity in such an exhibition.

Our website evolves constantly. The pages known as "classical" are available since the beginning (operators, pilots, QSL manager, sponsors) and news articles appeared lately (historical, bandplan..). Others are in preparation and should be published soon (interview of FR5ZU and F6JJX, two ex-"Tromelin" operators, PowerPoint presentation..).

It is the ideal time to prepare your station to be ready. On October 30th point your antennas towards the Indian Ocean! In the meantime join us on Facebook & Twitter to follow our news and keep an eye on the Tromelin2014 website (www.tromelin2014.com/). A surprise will be announced soon!

[DX-World]

T30, WESTERN KIRIBATI (Update/Bulletin #2): August 29th, 2014

Everything is on schedule 4 weeks before our expedition starts at the end of September. As already announced our group will run four stations 24/7. Also one or two more well equipped stations can be used from time to time and as back-up. Only one station will be possible on each band at the same time because we have only one antenna location. The antenna setup includes 3 spider beams, a 4 element for 6 m, several full size loops and verticals and small amplifiers. Our main targets are lots of radio contacts with far away Europe, but we will not forget the hams from the other parts of the world. A serious effort is planned to all bands 160 to 6 m and modes CW, SSB and RTTY. We decided to change the previous announced 10-m-SSB-Frequency from 28.445 to 28.465 MHz to avoid conflicts at the IOTA frequency 28460 kHz with our split. The most wanted bands and modes are known and will be considered. Right now we have no plans to take part in any contests to a full extend. If we have a good internet access we will do a daily log update at club log.

The T30D-crew is overwhelmed and grateful for the great support of many Ham Radio Foundations and individual hams. Special thanks go to sponsors who have made a donation in advance. This helped a lot with early expedition costs. Our crew also wants to thank the DL7DF-crew and DL9GFB for material help. One last challenge was to receive the confirmation from the involved airlines for oversize and excess baggage which is not only extremely expensive but also a long process.
