KP1, NAVASSA ISLAND (Press Release)

The KP1-5 Project is pleased to announce that the U.S. Fish and Wildlife Service has agreed to allow an amateur radio operation from Navassa National Wildlife Refuge (KP1). The operation will occur within the next 18 months and will be coordinated with the USFWS work flow.

Over the past year, the KP1-5 Project has had numerous meetings with various levels of USFWS management. Throughout our discussions, their personnel have been courteous, professional and cooperative. We have been treated with sincere interest and respect and believe that amateur radio operators may now be viewed as partners and not adversaries.

As with the Desecheo operation in 2009, and in order to be transparent and fair, the USFWS has requested proposals for the amateur radio operation from those individuals and groups that have already applied for a Special Use Permit in the past. The KP1-5 Project will be submitting a proposal and hoping to be selected as they were for the very successful Desecheo (K5D) operation.

We wish to thank the USFWS for their decision to allow this operation. Navassa Island is ranked #2 most-needed DXCC entity by The DX Magazine and #1 by ClubLog.

Please visit our website for up to date information. <http://kp1-5.com/>

Sep 26 2014

NBR. 613

Hi all,

Everything is on schedule for our arrival in Vanuatu on October 3rd. We hope to have at least two of the stations working and at least one aerial up for that evening. The emphasis the next day will be installing the contest band antennas ready for the Oceania DX contest SSB leg later on that day, though we do hope to make some Qs as well. Soon after the contest, we'll be adding the WARC band antennas and 6m set-up, and when time permits the 160m antenna.

We will be looking for openings to South America and Africa, the two continents most needing YJ for a new one, so if you're outside these areas, please QRX for the very short time it will take to work through callers.

Regarding the Oceania SSB and CW legs, Clublog real-time uploads will be switched off during this time and uploaded soon after the contest ends.

The YJ0X crew has worked together very well through the planning stages and we're all very excited to be undertaking this adventure!

See you in the pile-ups!

Paul, Phil, Gordon and Geoff

YJ0X

FT4T, TROMELIN (Press Release, August 26th)

Flo, F5CWU, sent out and posted the following on the FT4TA Web page: "One more thing. by Flo --

In just a month, we'll leave Europe for Tromelin. Except for a major event, this communication should be the last before departure.

It seems important to us to point out the objectives to you that we fixed ourselves.

Initially, we will seek to maximize the number of contacts to give everyone a chance whatever their geographical position. To achieve this goal, we should be active quite often on the most prolific bands. Our operators will make their best to exploit the propagation windows towards certain areas. The collaboration of all will be essential not to waste time, stupidly.

Our second priority will be activity on the low bands, with all the difficulties that it generates. Let's hope that our equipment and effort will provide good results.

Once a day, the logs of FT4TA will be uploaded on ClubLog by a satellite data connection. The leaderboard will not be activated. (to discourage unrestrained race). 'In addition, we point out that neither the pilots, nor the QSL Manager will have access to the log during the operation. Useless to drown them under e-mails. In case of doubt, please reiterate the contact.'

NBR. 613

The dates of our operation will be concomitant with those of the philatelic exhibition of Paris. In addition to a presentation of our activity, the stamps celebrating the 60 years of the 1st amateur radio activity from Tromelin will be presented and put on sale by the TAAF. We are really happy to have taken part in its development and proud to see our activity highlighted.

We are pleased to announce that all the QSL cards requests (direct - OQRS - donors) will have this stamp applied. Envelopes will be then entrusted to the TAAF which will have the responsibility to convey, cover and affix the philatelic marks from the island of Tromelin, these stamps being valid only from the French Southern and Antarctic lands. It may slightly lengthen the answer time but it offers the opportunity of having your QSL and a wonderful philatelic envelope.

Lastly, keep in mind that the conditions under which the expedition will be realized will be testing, more especially as the team is small. We will be lodged by the TAAF. Besides the radio operation, a certain number of additional tasks will be carried out by the team to assist our hosts, which is legitimate in a community life. We could per moment be obliged to temporarily stop the transmissions of one or more stations for a short period.

You can right now find all details on our website. Throughout the stay, our team in France will keep the site updated with news as well as photographs transmitted by satellite with the logs.

Thank you for your encouragements and your support..... The team FT4TA"

Just as a reminder! -- More details and updates can be found on the following media and URLs Web pages at: Tromelin Web page - <http://www.tromelin2014.com>

Facebook - <https://www.facebook.com/tromelin2014>

Twitter - <https://twitter.com/tromelin2014>

VK9L, LORD HOWE ISLAND (Press Release, September 17th).

Christian, DL1MGB, reports:

"In less than four weeks VK9DLX will be QRV. All systems are still on go and the team can't wait any longer to start. Our cargo of over three tons was cleared by Australian customs and is now on the way to Port Macquarie. On September 25th, the Island Trader will take it onboard on its regular round trip to Lord Howe Island.

The main team will arrive on October 12th on Lord Howe Island. Some of our team members will arrive some days earlier. Robert (SP5XVY) will arrive on October 5th, Joe (DF7TH) on October 9th and Gerd (DJ5IW) and Mathias (DJ2HD) the day after. So don't be surprised if you hear VK9DLX some days earlier than expected; and not on all bands simultaneously :-).

The main focus of this advance operation will be RTTY.
