## **FT4JA Juan de Nova 2016**

**Hi friends**

**FT4JA is your expedition! By supporting the Juan de Nova 2016 project you become in some ways a team member and as such it seems essential to us to share with you the preparation for the operation.**

**We are happy to announce that our tenth operator recently made it official that he will participate in the operation. We are talking about Diégo, F4HAU.**

**Our team of pilots is also ready. It will be managed by Cedric, F5UKW who will summarize the requests and comments received by “regional relays” who are: N5FG (NA / SA), ON9CFG (EU / AF), JJ3PRT (AS / OC). They will be the people to talk to before and during the expedition. We rely on you to provide them with relevant information to refine our propagation predictions and organize our traffic.**

**On the island, we will have a satellite connection. Although this set up is expensive, we consider it necessary to offer different services: online log, photos, news, correspondence with**

the pilots. Exchanges in this way will however be limited to the strict minimum in order not to increase the budget, already very tight.

The experience of our operation from Tromelin (FT4TA) is of course a tremendous asset. We have long debated the strengths and room for improvement. Although returns were extremely positive, we carefully recorded comments and remarks to strive for an even better user experience and close to your expectations.

The relationship of trust with the authorities allows us to involve a greater number of operators for a longer duration to maximize the chances of contact with Juan de Nova. With the support of several sponsors, we also develop our equipment to have more flexibility in traffic and satisfy the greatest number: a second set of VDA on some bands, improved RX system, more stations available.

It is clear that our budget is harder to reach because of the numerous major operations over a short period of time. Let's not forget that most of the expenditures are made before departure. Therefore, it is essential that the mobilization continue so that the Dxpedition can take place.

We count on your support and that of your clubs and associations. Each donation brings us one step closer to Juan de Nova. Let's hope that all DXers will in turn invest in the project. It is never too late and every donation, whatever the amount, is important.

The team FT4JA – Juan de Nova 2016 <http://www.juandenovadx.com>

## **AF-119. New IOTA - S79C**

The much anticipated Coetivy Island (AF-119NEW) DXpedition is soon to begin. After 5 months of intense preparations, the S79C team would like to remind you that in less than 2 weeks time, Christian/EA3NT, Dave/EI9FBB, Col/MM0NDX, Ronald/PA3EWP, Jacek/SP5APW and Craig/VK5CE will transit through their national air-ports en-route to Mahe, Seychelles.

We are pleased to confirm that our requested S79C callsign has now been officially issued and all paperwork is in hand. In addition, planning and logistics are now complete.

All six operators, and in excess of 300Kg of equipment, need to fly the final 300Km to Coetivy island and land on the short 500m airstrip. This final flight is by private airplane charter and actually doubles the overall budget. Without doubt, this is a hugely expensive IOTA DXpedition and we are indebted to each and every donor/sponsor. However, we do seek additional funding support. Until November 6th, we still offer a 'Free QSL' for advance donors of ?5 or more. Your generous contribution is most welcome and helps offset our enormous costs.

If you would like to support this unique activation, please visit:  
<http://www.af119new.com/donate>

Furthermore, the team is delighted to inform that 50Mhz will be used - a dedicated station will run 24/7 during our stay on Coetivy. Our suggested beacon frequency is 50.103.5 MHz. It should be noted that S7 is very rare on the 'magic band' and we are thrilled to have got this special permission!

This is our final Press Release. Next official dialogue will be whilst our team is en-route and only via our Twitter feed @af119new <<https://twitter.com/af119new>>. Follow us for the very latest updates. (Note: some team members may also update their individual Facebook page as they journey to AF-119).

We wish all very good luck in the pile-ups and look forward to seeing you in our log!

Vy 73 de S79C team.

## **P5, NORTH KOREA.**

The "DXNEWS" reports that Dom, 3Z9DX, is planning to be active from North Korea (Democratic Peoples Republic of Korea), January - February 2016 as P5/3Z9DX. He has the license to operate on 3 bands, but he is planning to concentrate his operation on 20m only SSB using 100 watts into a GP7 vertical antenna. QSL via his home call sign. ADDED NOTE: Dom just recently came back from the GXP antenna factory. Waldek, SP7GXP and Dom made final adjustment on the GP7 Vertical antenna. This antenna will go with Dom to North Korea during a December trip together with other radio equipment. Waldek, SP7GXP, is a well known manufacturer of antennas and his company GXP antennas is also well known. You can visit Waldek's Web site at <<http://sp7gxp.pl>>.
